

# **JOURNAL FÜR UFO-FORSCHUNG, No. 220, 4/2015**

## **ENGLISH SUMMARY**

---

### **UFO OBSERVATION (pp. 98–102)**

Starting in 2014, and still continuing, a 34-year-old Bamberg man has had what one could class as abductions experiences. These, however, he described in incoherent writings full of spelling mistakes, also, after a few exchanges, the witness quit communication. The man obviously felt that aliens had approached him and had done unspeakable things to him (which he did not specify); he also talked about area 51 and chakras. The article ends with a discussion whether this incident might be pathological (possibility of schizophrenia?), and what a responsible UFO investigator should do when faced with such a report by a person who does very much suffer from what he experiences.

### **COOPERATION BETWEEN DEGUFO, GEP AND MUFON-CES (pp. 103–104)**

At a meeting in June 2015, the presidents of the three German UFO research groups DEGUFO, GEP and MUFON-CES have decided to form the “German Cooperation Initiative UFO Research.” Cooperation will be effective while investigating UFO cases, the MUFON-CES will file their sightings in a shared data base, all will submit to the principles of earnest UFO research. In the future, there might be joint conferences and similar activities.

### **LANDING TRACES IN GERMANY (pp. 105 – m)**

Additional reports on strange UFO phenomena that have been said to have left landing traces, including crashed saucers, from Germany.

### **THE »ROSWELL SLIDES« IN RETROSPECT– A BAD EXAMPLE FOR METHODS IN UFO RESEARCH, PART 2 (pp. 110–120)**

As the author outlines the fiasco about alleged slides of Roswell aliens which actually showed the mummy of an Indian boy, he points out that as the proponents of Roswell reality jealously guarded their slides and only investigated in the firm belief they had alien proof, they were bound to fail.

### **REVIEWS (pp. 121–128)**

No English language books are reviewed in this issue.
